Exam Readiness: AWS Certified Advanced Networking - Specialty

Duration: 03 days

The AWS Certified Advanced Networking – Specialty exam validates advanced technical skills and experience designing and implementing AWS and hybrid IT network architectures at scale. As a networking specialist, you will design a secure, scalable, and highly available network infrastructure on AWS while addressing requirements like network security, hybrid IT connectivity, network integration with other AWS services, routing techniques, and network troubleshooting.

AUDIENCE

This course is intended for:

- Solutions architects
- SysOps administrators
- Data scientists
- Data analysts

AT COURSE COMPLETION

The AWS Certified Advanced Networking - Specialty examination validates advanced technical skills and experience in designing and implementing AWS and hybrid IT network architectures at scale. This examination is for individuals who perform complex networking tasks, and it validates an individual's ability to:

- Design, develop, and deploy cloud-based solutions using AWS
- Implement core AWS services according to basic architecture best practices
- Design and maintain network architecture for all AWS services
- Leverage tools to automate AWS networking tasks
